THE RGP VISION

The vision of the RGP is to 'Deliver a Safer Gibraltar through Excellence in Policing'. Together with partner agencies and stakeholders, they will develop their people and professionalise the delivery of their service to the community they serve, striving to make Gibraltar a safer place in which to live and visit.

This GPA Policing Plan aligns directly with His Majesty's Government of Gibraltar's aim to support a safe and thriving economy. The RGP, as the lead law enforcement agency in Gibraltar, will do this by continuing to lead on physical security in Gibraltar, continuing to maintain and further develop the already well-established relationships with partner agencies and stakeholders, and, overall, do its utmost to ensure a safer Gibraltar.

"Delivering a Safer Gibraltar through Excellence in Policing"

FOREWORD

CHAIR OF THE GIBRALTAR POLICE AUTHORITY
Dr Joseph BRITTO

It is with great pleasure that I present the second iteration of our three-year Policing Plan. The plan continues to reflect the ongoing modernisation and transformation of the RGP and will continue to build on the significant improvements that have already been achieved in addressing the areas for development identified in the 2016 and 2020 HMIC&FRS reports. The RGP, the Authority is confident, will continue to improve and develop its capacity-building with the forward-looking approach that, I am happy to say, has already delivered dividends in its continued pursuit of excellence.

Ahead of the start of the new policing year which runs between the 1st April and 31st March, and, in line with last year's launch of the new format policing plan, the GPA and RGP reviewed issues of concern highlighted in the latest GPA Public Consultation Survey and compared these with the priorities outlined in last year's Annual Policing Plan. This exercise sought to confirm whether the priorities in question remain valid, and indeed, I am happy to confirm that there is a strong correlation and this has led to the principal 2021/22 priorities remaining in place for another year.

This new policing year will also see the RGP undertake additional thematic survey work outside the framework of the annual GPA public consultation survey, with a view to address a number of existing knowledge gaps and better understand the nature and scale of particular crime types, trends, community perceptions and awareness.

The priorities of both His Majesty's Government of Gibraltar (HMGoG) and of His Excellency the Governor of Gibraltar have also been considered and were incorporated at the onset of the overall three-year plan. This plan has been designed to ensure that the RGP continues to work on the Recommendations and Areas for Improvement outlined by His Majesty's Inspectorate of Constabulary, Fire & Rescue Services (HMICFRS) in their 2020 report, as well as continue the programme of measures introduced in 2020 aimed at dealing with bullying and perceived blame culture within the Force.

The Authority is confident that the RGP will continue to build upon and develop its partnerships with other law enforcement agencies, both locally, regionally and internationally, including the Gibraltar Defence Police and British Forces Gibraltar.

FOREWORD

COMMISSIONER OF POLICE
Richard ULLGER

This is the second year of our three year policing plan, and I write with a renewed focus on the core priority activities to meet the objectives and the success measures in achieving them. This is done with the ultimate objective of *'Delivering a Safer Gibraltar through Excellence in Policing'*.

Policing Gibraltar will continue to face its challenges and we need to be prepared to do this by being more effective and efficient. The drive to achieve this has in part been linked to the implementation of the Recommendations and Areas for Improvement outlined by His Majesty's Inspectorate of Constabulary and Fire and Rescue Services in 2020, but also because of the reform we have undertaken to police the demands and risks that affect us most. This has involved using the Management of Risk in Law Enforcement tool, completing individual departmental and capability Strategic Demand and Organisational Risk Assessments, reviewing the Force Risk Register and biennial Force Strategic Threat & Risk Assessment (STRA), and drafting the RGP's first Force Management Statement. Completing these significant pieces of work has allowed us and will continue to allow us to be better prepared, address risk and become operationally resilient.

The results of the recent Gibraltar Police Authority's Annual Public Consultation Survey have shown just how closely our own assessments of priorities and the concerns and priorities of our community are aligned, and I am grateful and encouraged by this. I believe that part of this is attributable to the public being better informed of both our policing activity and the demands we face, through improved use of traditional and social media during the past year. Consequently, this reassures us that the policing priorities remain relevant to both the public and police service. We will continue to communicate and interact with our community regularly, seeking feedback, continuing to be innovative in the way we police and working collaboratively with our partners, locally, regionally and internationally.

We are also conscious that the public wants to see a more visible uniformed presence within the community, and we will proactively address this. Having said this, it is important for me to highlight that today's policing landscape also requires a range of specialist policing services that are largely "unseen," however, I can assure our community that such services continue to be delivered to excellent standards by committed staff, to protect the public, particularly our most vulnerable. We will invest in investigating financial crime better and explore solutions with which to enhance the management of our Information Technology.

Finally, our leadership style and learning culture continue to embed themselves in our teams, and we will embrace difference by being diverse and inclusive, but most importantly, by improving the service to victims of crime. We have done a considerable amount of work already to achieve this, but we need to continue to do more, in order to improve satisfaction levels and maintain public confidence.

YOU TOLD US...

I feel that the biggest problem that Gibraltar faces is that of Drug Trafficking. We have a lot of youngsters consuming drugs

A stronger presence is needed on the roads, as that is the only time I feel unsafe..
A points system should be introduced with disqualification if deemed necessary

No visible police presence in the Town and other community areas to deter crime..
More emphasis on crime prevention by visibility

Generally more transparency communicating the status of cases where victims of domestic abuse are concerned
Domestic Abuse should be a priority

More should be done to tackle crimes by repeat and young offenders..
The Justice system and Social Services need to get on board with this

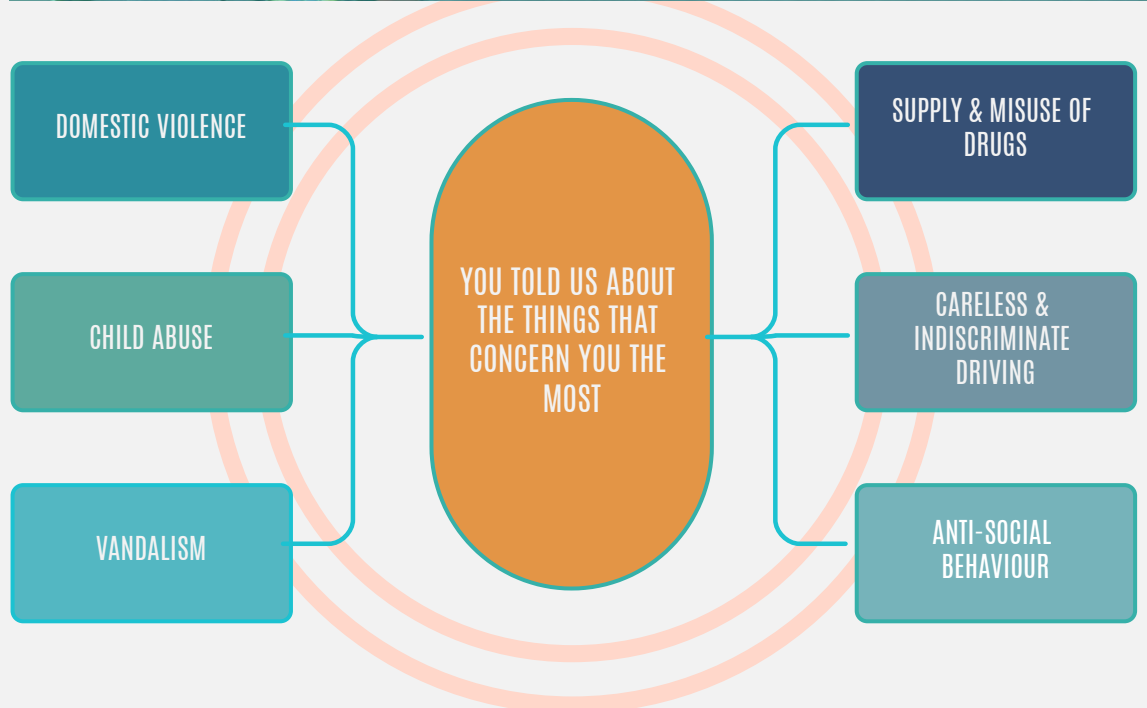

My main concern is the high levels of Anti-Social Behaviour..
Anti-Social Behaviour needs to be a priority

...WE LISTENED

We listened to your concerns and have ensured our policing plan priorities address them. The GPA and RGP believe that every victim, of whatever type of crime, should receive appropriate support and the services they are entitled to under the Victims Code of Practice. In delivering all our priorities we will support the RGP to provide a consistent, excellent service to victims and witnesses, and support vulnerable victims and witnesses through the Criminal Justice System. This approach will build the confidence of victims and witnesses to report crime and remain engaged with the Criminal Justice process.
